Within every human heart lie jewels of limitless peace, profound connection to the whole of life and the experience of boundless love, yet most of us live in dis-connection to this that is naturally at our core. This weekend is dedicated to awaken you to what you truly are underneath the stories, habits and fearful patterns of conditioning, so you can meet the challenges of life from greater depth of being.

Miranda works with the ancient non-dual teachings together with energetic practices and devotional chants that help us to integrate these timeless truths. She has evolved a new body of Self-enquiry exercises, which encourage the direct realisation of our true nature as eternal love, consciousness and bliss.

Miranda Macpherson is known for her depth of Presence and refined capacity to guide people into direct experience of The Sacred. Author of "Boundless Love", founder of the Interfaith Seminary, and co-founder of the new "Feminine Wisdom School" in California, Miranda teaches all over the world. Her guidance helps bring non-dual teachings to life, via a synthesis of Self-enquiry as inspired by Sri Ramana Maharshi, Spiritual Psychology including "A Course In Miracles" and feminine Grace.
